Title: - Violation of Society Norms Regarding the illegal Constructions and Encroachment of society Land.

Dear All Members,

It has been found that members are misusing & encroaching the society land, we have a comprehensive plan that every society member have to leave open Minimum 5 ft of area adjoining/alongside the road.

- Society intends to cover this space with grass only, there are very few houses in the society having inside parking for their Vehicles & no car will be allowed to be fully parked on the road.
- No barricading is allowed alongside the road in any form viz; Brick/Concrete work, iron fencing, haze etc.
- No side gate is allowed in the premises
- Construction material is not allowed to be stored on road for long period and proper cleanliness is to be maintained by the house owner.

We hope each member will compile with the society norms. We request you to kindly get the things removed within 7 days else society will initiate appropriate action on this.

Few society members are found carrying ill-legal construction also. We request them at initial stage itself to **stop it and remove it immediately** else individual notice will be served to them for immediate action.

Thanking you
